## What did you like the most about the course?

### Comments

I liked the double integral as i could actually know what i was trying to find and how it would apply to the real world unlike previous calculus courses

I enjoyed this course thoroughly. Honestly it was a quite easy course in comparison to my other courses, and the way Prof. Ayman taught it made it so so enjoyable!

## Suggest specific improvements to the course, if any.

### Comments

The differences between theorems could have been spicified clearer as i got lost on what theorem was used in which situation. Additionally it would be nice to have a review class on integration rules as some might have taken calc 2 a long time ago and need a refresher.

None :)
