

On the occasion of the United Arab Emirate Flag day I would like to say few sentences and to be brief to the point. I came from Palestine in the year 2003. Since 2003-now, I witnessed all the positive changes in this country. UAE becomes a remarkable spot on the world map. Yes indeed, the green color of the flag is for love and optimism that enables dynamic multiculturalism to thrive. Thank you UAE for being so good to me and to my family. You opened so many opportunities to me and to my family that seem so impossible somewhere else.

One thing for sure: Our love to this country will stay and will grow to the rest of our life.
