Comments

It's really perfect with Professor Ayman, but we as students should improve our way in getting math.

## Please enter specific comments, if relevant, on the role that Information Technology plays or could play in this course

Actually there are some websites that can find some trivial calculation that may take from your time while it's not the aim from the course like multiply matrices. This is one of the useful sites– <https://matrix.reshish.com/>

I wished if my work was in Sharjah not in Abu Dhabi, so I can attend any other courses with him to learn more from him. I am really proud of him.

Actually professor Ayman try his best to simplify the material as much as he can, and the interesting thing is that there are somethings he gave, you would not find it on the internet or in any book. In addition, he gave you what you really want and what you need and not waste your time with something useless. I just want to till him you are special and perfect, just stay the way you are and I am looking forward reading your book.
