## Report Comments

### INTRODUCTION

This report contains the results gathered during the online course-instructor evaluations. Students were invited to share their feedback on the teaching and the course material, ultimately to help improve the overall quality of education at our institution.

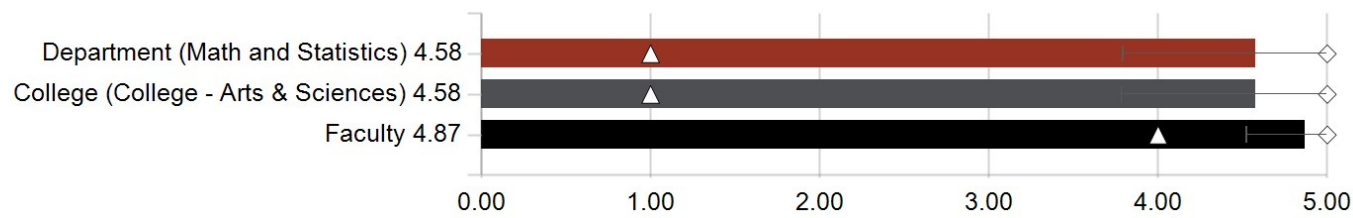

It is now our collective duty to turn this insight into action.

As part of this mission, all instructors receive an Individual Report for developmental purposes i.e. to identify strengths and areas for improvement in regard to their teaching methods. Contents include graphs, tables, rankings, frequencies, statistics, and comments, as well as reflective questions to help guide you in the preparation of your personal development plan.

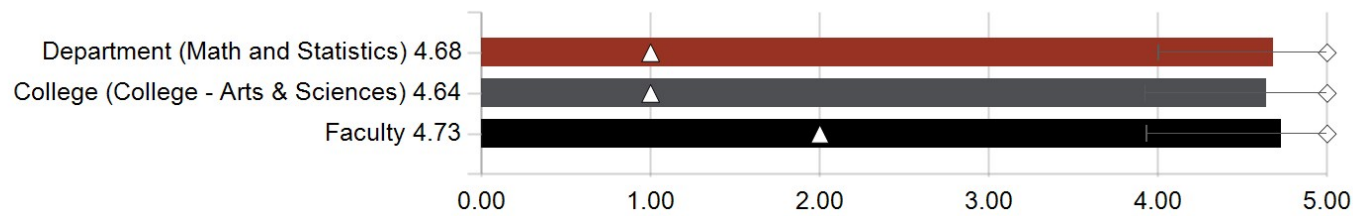

We urge every Faculty Member to diligently examine all the analysis, to seek to understand it, to take note of patterns, to draw logical conclusions and to take it upon yourself to act on the valuable feedback your students have taken the time to provide.

Comments
I love the Professor, hes amazing
Love the Professor. Very good way of teaching and explanation easy to understand. Very nice guy in general. Easy exams and quizzes relevant to things learnt in class. Would definitely recommend him to my peers and hope that I get to learn from him again for another course.
The professor teaches with passion. He is obviously very knowledgeable and makes sure to get the courses ideas to us in the most organized and clear manner
His teaching style
Amazing course different than other math courses
The weekly quizzes were very helpful.
the professor's down to earth mannerism, he likes the students and explains the subject in terms of other majors to make it easier to understand
great professor

## Suggest specific improvements to the course, if any.

Comments
Making the discrete exams common as Ayman has given us significantly less material than other sections and our exams were significantly easier that I didn't feel like I learnt anything. Forcing professors to meet specific learning objectives should be the minimum.
maybe drop 2 quizzes instead of one because we did lots of quizzes
