The professor! gives and explains all the material in full. He genuinely cares about his students and tries to help to the best of his abilities. This is also reflected in our class average.

prof. way of teaching

–the professor taught this difficult course well

Suggest specific improvements to the course, if any.

Comments

he is perfect the way he is! the best and the most devoted professor in the subpar, thoughtless, and inconsiderate math department.

–partial credits should be given for MCQs

–otherwise, remove MCQs entirely & give more solving Qs

–give bonus questions & curve the final grade

–Summer semester is short, so don't give tricky Qs & if it has to be given, then solve for students so they're able to attempt atleast
