INTRODUCTION

This report contains the results gathered during the online course-instructor evaluations. Students were invited to share their feedback on the teaching and the course material, ultimately to help improve the overall quality of education at our institution.

It is now our collective duty to turn this insight into action.

As part of this mission, all instructors receive an Individual Report for developmental purposes i.e. to identify strengths and areas for improvement in regard to their teaching methods. Contents include graphs, tables, rankings, frequencies, statistics, and comments, as well as reflective questions to help guide you in the preparation of your personal development plan.

We urge every Faculty Member to diligently examine all the analysis, to seek to understand it, to take note of patterns, to draw logical conclusions and to take it upon yourself to act on the valuable feedback your students have taken the time to provide.

What did you like the most about the course?

Comments

The subject itself is interesting, also having a great professor like dr.Ayman is really made me proud.

class notes are good and organized

Suggest specific improvements to the course, if any.

Comments

I hope if the course cover less material so we can study in a proper way and understand the topics very well, unfortunately the time is short and the material covered is very huge, a lot of topics in this course were new to us and really need time to stick in our minds. Moreover, the exams were in a high level, the notes and the book provided are not enough!!

please give the chance for your students to ask and discuss without getting angry
