Q20 - Please enter below any comments on how the course should be improved

- if he could accept a student's question without making them feel they asked something silly. other than that, he is great 
- COMMON EXAMS SHOULD BE BANISHED, as NOT ALL PROFESSORS TEACH THE COURSE MATERIAL THE SAME WAY. It is highly difficult to be used to your professor's methods and way of asking the questions then being surprised with another professor's question's. They are not needed and make the course much more dreadful than it already is.
- ALSO, it is highly difficult to be using an e-book instead of a normal book. I understand that we are in a new century and everything is improving, but it is highly difficult to be trying to answer questions and having to flip through pages online; going back and forth on a computer to flip through pages is so dreadful where you just give up. Such a mistake to whoever considered making a textbook an e-book, no wonder none of the class made effort to purchase the book and instead searched for hardcover books. 
- The course should not start with intense applications (present value, past value, future value) 
- its already improved 
- the midterms and final exams are at a much more advanced level than the class quizzes and material
- taught daily. students are taught the basic material in class but asked a much much higher level in the midterm and exams 
- Nothing 
- Please inform the students well in time as to what is going to be covered in the Mid-term exams. 
- Teach faster please 

Q21 - Please provide your instructor with helpful suggestions for improving his/her effectiveness

Faculty: Badawi, Ayman R

Response Rate: 13.89% (5 of 36)

- When a student is asking a question, avoid making belittling them in front of the students or mocking them no matter how silly YOU might find the question to be. 
- - 
- Nothing perfect teaching 

- You're fine. Please keep it up. 
- Provide more examples in relation to business 

Q22 - Please enter specific comments, if relevant, on the role that Information Technology plays or could play in this course

Faculty: Badawi, Ayman R

Response Rate: 13.89% (5 of 36)

- NOTHING. THIS IS MATH. IT SHOULD NOT INVOLVE INFORMATION TECHONLOGY!!!! it should be solved on paper, not on the internet. 
- - 
- Nothing 
- N/A 
- online quizzes please like webwork
