2	Less material
3	bad professor.... cant teach calculus 3 only good for differential and linear algebra

Faculty:	Badawi, Ayman R
Question:	Please provide your instructor with helpful suggestions for improving his/her effectiveness
Response Rate:	10.34% (3 of 29)

1	Dr. ayman should teach this course more often so that he will be able to get used to the material.
2	If you could please organize your explanation in which you go section by section following the book, and mention the section you are explaining when you write on the board, then tell us that you have a quiz in this section instead of saying the ideas you will bring which come from different, separate sections through the chapter in the book
3	it would be very helpful if more examples can be provided to help us understand the concepts because a basic example was not enough and we struggled while studying to understand

Faculty:	Badawi, Ayman R

2 He is a great Professor with a great mind. He doesn't just give us information, he explains the theory behind everything. I feel proud to be his student.
