<b>Question:</b>	<b>Please provide your instructor with helpful suggestions for improving his/her effectiveness</b>

<b>1</b>	Plan what will be done in class ahead of time. Bring notes with you to class so that you don't have to stand there for 10 minutes to come up with one example. Add some order to your lectures, and provide the students with emails about the material of each exam and the corresponding section numbers from the book.  Don't laugh at ANY student's question, no matter how "trivial". It's demeaning and condescending of you, and for the less confident can cause them to never ask questions in class again.
<b>2</b>	He's the best of the best
<b>3</b>	You are an amazing professor, but if your exams are like the examples you solve in class, it would be much easier for us. Thank you sir.
<b>4</b>	No comment.
