Q20 - Please enter below any comments on how the course should be improved

Faculty: Badawi, Ayman R	
Response Rate:	21.88% (7 of 32)
1	there is no textbook that is provided in this class which makes it extremely hard to keep up and understand everything. with a textbook provided it makes it so much easier to understand the content better.
2	should have a textbook/workbook
3	open up more mth111 with different professors.
4	The course should have a book associated with it since the professor doesn't associate any notes for the material.
5	I think a text book and a set syllabus of topics to be discussed and learned with an appropriate schedule would be greatly beneficial.
6	A textbook must be provided.
7	.

Q21 - Please provide your instructor with helpful suggestions for improving his/her effectiveness

Faculty: Badawi, Ayman R	
Response Rate:	25.00% (8 of 32)
1	could upload questions on ilearn before class so that we could solve it in class
2	chilled, made it seem easier.
3	You are a funny man. Thanks for not making this course too difficult :D
4	The professor should give notes for the students. The professor does not only speak in English.
5	Since some students are unfamiliar with the material given in class since it wasn't taught in school, the professor would move too fast sometimes so it would be hard to keep up at times. It would be of great help if the professor provided worksheets, homework or other materials that would help us practice at home instead of just reading our class notes.
6	Please provide a text book for students to study from
7	Don't assume that everyone learned the same things in highschool.

8	.

Q23 - Other comments

Faculty:	Badawi, Ayman R
Response Rate:	6.25% (2 of 32)

1	There is no text book or supplementary material, but this is not a problem at all. The professor teaches everything by himself and covers everything that is going to be on the exams. The previous quizzes and exams are uploaded on iLearn which is very helpful.
