1	I would like to share my appreciation for Professor Ayman Badawi who, throughout the entire semester, constantly gave me the motivation and will to continue learning and excelling in the course. Considering this is a mathematics course, a discipline that I have struggled with in the past, what the professor has done for me is immeasurably valuable. I walked out the class room every time clearly understanding the material we covered. Any student who paid attention to his thorough and concise explanations would have more than enough information to successfully pass the course. I would recommend this professor to future students who wish to take Math 111.	🔍
2	I really enjoyed this course with Professor Badawi. He explained all the material very carefully and thoroughly and he himself was very funny. If i had a chance to take another course with him, I would definitely do so.	🔍
